

# Garbini Education and Career Consulting LLC.

## ABOUT US

Garbini Education and Career Consulting LLC. recognizes there is no "one size fits all" solution for challenges in life. We treat each client as the individual they are and help find their unique triumphs as they work toward their ultimate goals. With a hands-on, proactive approach, Garbini Education and Career Consulting LLC works with each client to empower them.

With close to two decades of experience in the higher education field, President and CEO Scott S. Garbini has the expertise and resources available to help you, or your child, design a plan and take that first step towards a positive and productive future - both in and out of the classroom. Frequently sought out for his expertise in underrepresented areas of need such as; ADHD, LGBTQ issues, anxiety disorders, or learning disabilities, Scott has the tools available to help your child reach their potential.

Scott also provides high school-to-college, college-to-career and/or life transition and coaching. He works with clients and families throughout the year as a mentor, coach, and (as many of his clients have said!) a surrogate parent when needed.

Having numerous learning challenges himself, including ADHD and Dyscalculia, Scott learned to overcome obstacles both externally and internally. However, despite being discouraged from even attempting Higher Education he went on to pursue both a Bachelor's of Science and then a Masters in Education.

Scott's unique life experiences, combined with his passion for individual success and empowerment, makes him the best person to help you or your child feel empowered and attain the goals for which you are all aiming.
